PROFILE

AI Product Designer combining UX/UI design, hands-on development and commercial storytelling. Led StoryFrame from concept to a live pilot that recorded 12.7k views and 3.6k first-time users in 11 days. Builds internal tools used by business teams and creates bespoke client presentations, with experience spanning product strategy, AI workflows and interactive design.

CORE SKILLS

Product: UX/UI design, user flows, wireframing, prototyping, design systems, product research and roadmaps.
Technology: API integrations, AI prototyping, prompt workflows, WebGL and TouchDesigner.
Communication: Visual identity, motion design, presentation design and pitch narratives.
Tools: Figma, Adobe Creative Suite, Blender, Claude Code and Cursor.

EXPERIENCE

TRIVANDI | London

AI Product Designer, Tech & AI, Experience Design Studio | Apr 2026 - Present

- Led StoryFrame from concept to live delivery, owning UX/UI design, research, content and launch strategy; collaborated with a developer and resolved bugs during the Glasgow 2026 Games.
- StoryFrame recorded 12.7k views and 3.6k first-time users across the 11-day Games, following a two-day tent-card activation reaching 200+ venues and local businesses, with no wider marketing campaign.
- Independently designed and built workforce and annual-leave dashboards integrating live Breathe and CMAP data via APIs; both are now used by internal teams.
- Led delivery of a project-management tool used by Tech & AI, integrating with CMAP and supporting wider rollout through feedback from a test group spanning every team.
- Own narrative, structure and visual design for bespoke business-development decks across sport, esports and entertainment; lead StoryFrame marketing and client-acquisition activity.
- Defined the TrivandiOS roadmap and a 12-month build plan with a developer; created a leadership presentation shared with the C-suite and researched a RAG-based bid-generation tool.
- Designed and built Academy AI chatbot prototypes for stakeholder demonstrations; authored AI governance guidance and developed and delivered AI workshops for internal teams.

Design Intern, Marketing | Aug 2025 - Apr 2026

- Contributed to a major RFI response and the company rebrand, translating strategy into visual narratives across presentations, branding and motion.
- Collaborated with 3D designers on bid visualisations and directed company town hall videos, shaping narrative structure and visual language.

ADDITIONAL EXPERIENCE

STACK DESIGN STUDIO | London

Founder & Creative Director | Jan 2026 - Present

- Founded a design studio connecting emerging and experienced creatives to deliver branding, UX/UI and digital experiences; designed the service model, onboarding and client journey.
- Built and launched a signup platform to test demand and onboard early users; created the brand identity, visual system and positioning.

STEALTH AI STARTUP | Remote

AI Model Evaluator, Contractor | Dec 2025 - Present

- Evaluate design-focused AI outputs across UX/UI, generative art and interactive systems, providing structured feedback on usability, visual hierarchy and brand consistency.
- Develop prompt frameworks and repeatable evaluation workflows to identify and address design-quality issues under confidentiality constraints.

INOASIS | London

Creative Technologist Intern | Sep 2025 - Nov 2025

- Translated brainwave and emotional-response data into interactive visuals in TouchDesigner; led art direction for a planned rebrand and evaluated web platforms and design systems.

SELECTED EARLIER EXPERIENCE

Brand Designer | My Chaii London, Charity Project | 2025

Refreshed the brand identity, logo, design system and core communications assets.

Video Editor | BeKnown Ltd, London | Sep 2024 - Sep 2025

Produced short-form video and motion content and introduced new tools into editing workflows.

Exhibition Co-Lead | UAL Student Showcase, London | Sep 2024

Co-led identity, print and spatial design across three teams for an exhibition attended by 200+ people.

UI / Graphic Designer | Sesameed Education, Remote | Aug 2023 - Sep 2024

Created UI assets, wireframes and brand style guides to support consistent design delivery.
